There's something radically wrong with the international workings of the fellow that cannot find any good worth mentioning in anyone outside of himself and his own family.

Are you absolutely sure that you are right in your opinion or do you just think you are right? This is a good question to ask your self before you get mad at the fellow who disagrees with you.

NOTED SOPRANO TO BE FEATURED AT CHAUTAUQUA

Alice Nielsen, Boston and Metropolitan Opera Star, Is Booked For 1916.

SINGS ON CLOSING NIGHT

William Owen Company and Band Are Other Features of An Attractive Program.

Cities where Redpath Chautauquas are to be held this summer will have the opportunity of hearing Alice Nielsen, prima donna soprano of the Metropolitan and Boston Opera companies. With a capable supporting company she is to travel over the entire circuit in a private car, and her appearance is announced as the concluding feature of a highly attractive seven-day program.

Another Chautauqua announcement of local interest is that the William Owen company will present "The Servant in the House." Last season this great human interest play was

ALICE NIELSEN.

given in 120 cities, from Jacksonville, Fla. north to Chicago, by the same group of players secured for this circuit. Band day, as usual, will be an important feature of the program.

Miss Nielsen's appearance, of course, will be the event of Chautauqua week. Internationally famed as a soprano, and with an enviable musical following, her Chautauqua tour promises another triumph for her remarkable career.

After various successes in light opera in America Miss Nielsen appeared in London in "The Fortune Teller," an opera created for her by Victor Herbert. Later, and in record time, she changed from a light opera favorite to a star of first magnitude in grand opera—something that no other light opera star ever has been able to accomplish. In recent years she has starred with the Boston and Metropolitan opera companies, and at the present time is under contract with the latter organization in New York city.

Within a few weeks further announcement will be made regarding attractions secured for the 1916 Chautauqua program.

THREE GREAT SONGSTRESSES

Of Scandinavian Birth or Descent Have Thrilled American Audiences at Highest Honors.

Three marvelous songstresses of Scandinavian birth or Scandinavian descent have thrilled American audiences at the highest honors. First was Jenny Lind, next Christine Nilsson, and third Alice Nielsen, who is to tour the Redpath Chautauqua circuit this summer.

Jenny Lind was practically unknown in this country when P. T. Barnum, in 1850, entered into a contract with her to appear in not more than 150 concerts within a year and half from the time she arrived in the United States. For this she was guaranteed a minimum of \$150,000 and a share in the profits after Mr. Barnum had cleared \$75,000 above all of his disbursements. Jenny Lind sang ninety-seven times and the receipts were a little over \$712,000. The engagement gave to both Barnum and Jenny Lind comfortable fortunes.

When Rug Curia.

When small rugs curl, grate beeswax or spermaceti over the underside of the rug at the corners and press with a warm iron. This tends to stiffen the corners and in no way will the wax or spermaceti injure the floor, since it seeps into the coarse threads of the rug.

I am prepared with a large stock of hand made harness ready for the coming trade. Give me a call.

Why Live in a Jar?

Yes, you are practically living in a jar if your home is heated by the direct-steam or hot-water apparatus. Why? Because these systems heat by radiation, and not by convection. Because they steal the moisture from the air, from the furniture, and from your body. The air tastes dry-baked and harsh. It is dry—dry as a bone.

How May It Be Changed?

By installing a Round Oak Moistair Heating System—the system that heats and ventilates your home by supplying pure, warm, moist, ever-changing air, free from dust, gas, and smoke—the system that creates summer climate in your home and makes strong, sturdy, robust kiddies, and healthy grown-up folks.

Come in and let's talk it over this week. Ask your doctor.

There is an AVERY Size Tractor for Every Size Farm

They are built in 6 sizes from a one large plow to two small plows size at \$295.00 to a ten plow size at \$2475.00.

The Avery people being pioneers in the Tractor Business have long since brought their tractors out of the experimental stage, and you can rest assured that they will do the work for which they are intended, and live to do it over and over year in and year out. They are the only tractors built with removable cylinder linings. Crank shafts are very large. There has never been reported the breaking of a crank shaft.
